eSignature Reference

The Company never lose sight of the fact that product safety is essential to upholding consumers' trust and expectations. That's why, as an importer of children's product, we embed quality and safety into every product.

The Company uses a digital signature solution by GlobalSign (<http://www.globalsign.com>) to apply digital signatures that allow authenticity verification of documentations. VISHTEC leverages the GlobalSign Signature Appliance (DSA) product which complies with industry and governmental regulations including ESIGN, the eIDAS e-signature regulation in the European Union and FDA 21 CFR Part 11.

Once a digital signature is applied to a PDF file, any changes made to the file are logged ensuring that only the original VISHTEC-published file will reflect a valid signature. This process is done by digital encryption to ensure that the digital signature is in fact valid and the document was signed by the person whose signature appears on the document.
